

Reflections

March 31, 2020

A day spent working with board members.

The finance team was stunned by the success of our free meditations. We've had 8219 views of Health and Well-Being (10 days) and 4258 views of Relaxation (4 days). This format is working and people really appreciate these timely reminders of how to use their Monroe tools.

Hats off to our outreach trainers who are finding creative ways to connect with participants.

It's late. More tomorrow. Good night.
It's a pleasure to work with all of you.
